DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 7 and 8 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventors, at the time the application was filed, had possession of the claimed invention. Limiting the housing to a "generally constant diameter" is considered to be new matter.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 7 and 8 are rejected under 35 U.S.C. 102(e) as being anticipated by Dumler et al. (hereinafter Dumler). In regard to claim 7, Dumler discloses an enclosed applicator comprising an applicator with an applicator tip 2a affixed to an elongate member 5 and sealed along with a fluid within a "generally constant diameter" elongated housing 8 with an opening means 12 "near" the tip wherein when the housing is open

through the opening means, the applicator tip is exposed and the fluid in the housing may be applied by the tip. In regard to claim 8, the tip 2a is made from foam (see column 2, lines 63-65).

Allowable Subject Matter

Claims 1, 2, 4 and 9-13 are allowed.

Response to Arguments

Applicant's arguments with respect to claim 7 have been considered but are moot in view of the new ground of rejection.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
